SKILLS

- C Programming
- Python (basics)
- HTML, CSS
- SQL
- JAVA (basics)
- UI/UX Design

EDUCATION

Sri Sairam Institute of Technology
B.E Computer Science Engineering 2024
CGPA:7.8

Monfort Centenary Academy hr sec
School - 2020
402/600=67%

St.Joseph Matriculation School,
Walajabad - 2018
414/500=82%

PROJECTS

Blockchain and IoT Envisioned Healthcare Managment System

A Smart and Secure solution to the existing vulnerable healthcare system's data storage facility. The proposed model uses the concept of IPFS to secure the information of the user in a remote location in the network whose CID is being hashed and is stored in the blockchain This ensures safety of the data without having to compensate on the data retrieval speed and most importantly it allow for the interoperability of the data which is very essential in the modern era to move to a fully digital era.

INTERNSHIP

Cisco AICTE virtual Intership in Cybersecurity

- I gained cybersecurity knowledge and skill by completing
- Cisco Networking academy coures like Introduction of Cybersecurity and cyber security Essentials.
- I learned to use the powerful network simulation tool- packet Tracer

CERTIFICATES

- Introduction to cyber security
- Python Basics for Data science

EXTRA CURRICULAR

- Captained College Badminton team.
